SANTA MONICA, Calif., June 3, 2019 – Amazon Prime Video today announced *Carnival Row*, the one-hour Amazon Original fantasy drama series from Legendary Television starring [Orlando Bloom](#) and [Cara Delevingne](#), will premiere **Friday, August 30, 2019**. The first look at art from the series was also released today along with a teaser. *Carnival Row* will be available initially in the original version in over 200 countries and territories, with dubbed foreign language versions coming later this year.

Bloom (*Pirates of the Caribbean*) and Delevingne (*Suicide Squad*) star in *Carnival Row*, a series set in a Victorian fantasy world filled with mythological immigrant creatures whose exotic

homelands were invaded by the empires of man. This growing population struggles to coexist with humans — forbidden to live, love, or fly with freedom. But even in darkness, hope lives, as a human detective, Rycroft Philostrate (Bloom), and a refugee faerie named Vignette Stonemoss (Delevingne) rekindle a dangerous affair despite an increasingly intolerant society. Vignette harbors a secret that endangers Philo's world during his most important case yet: a string of gruesome murders threatening the uneasy peace of the Row.

Joining Bloom and Delevingne, the series also stars [David Gyasi](#) (*Interstellar*) as Agreus, a mysteriously wealthy faun who moves into an affluent human neighborhood in defiance of the social order, [Karla Crome](#) (*Under the Dome*) as Tourmaline, a quick-witted faerie poet driven from her war-torn homeland, [Indira Varma](#) (*Game of Thrones*) as Piety Breakspear, the regal and cunning matriarch of the powerful family that rules the city of The Burgue, and [Tamzin Merchant](#) (*Salem*) as Imogen Spurnrose, a young woman who sees in Agreus an opportunity to turn her aristocratic family's fading fortunes around.

Carnival Row is from Legendary Television, with executive producers [Marc Guggenheim](#) (*Arrow*, *Eli Stone*), [René Echevarria](#) (*Star Trek*, *Teen Wolf*, *Castle*, *Medium*), [Jon Amiel](#) (*Outsiders*), Bloom, and [Travis Beacham](#) (*Pacific Rim*, *Clash of the Titans*). Beacham's *A Killing on Carnival Row*, on which the project is based, appeared on the very first installment of the Hollywood Blacklist in 2005.
